

We define mobility

Full catalogue 2024

Quality allows no room for compromise

When it comes to the quality of our products, we – the members of the DIETZ GROUP team – set ourselves the highest standards. Before any rehabilitation aid leaves our factory, it has to go through numerous testing stations and usage simulations. Only products that truly meet all specifications of our technicians and engineers are deemed to meet our stringent quality standards. As well as going through our internal testing stations, our products are also put through their paces by independent institutes. Two groups that definitely benefit from our ambition are our retail partners and the people who use our products because they know they can always count on DIETZ quality products to improve their everyday lives.

ISO 13485

As a manufacturer of medical devices, we are certified in accordance with DIN EN ISO 13485:2016. We are meticulous about implementing all requirements that we – as a medical device manufacturer – need to meet in relation to quality management and quality assurance within the context of our processes.

The hygiene seal

This confirms that your product has undergone reprocessing in accordance with the MDR and that a professional hygiene service has been provided in line with the recommendations of the Robert Koch Institute.

All DIETZ GmbH products are developed and produced in accordance with the latest provisions of EC Directives 93/42/EEC & 2007/47/EC or 2006/42/EC.

General terms and conditions Version: 01/2019

§ 1 General information

1. Our terms and conditions of business, delivery and payment apply to the exclusion of all others. All side agreements in addition to these terms and conditions, even if accepted by representatives or employees, must be confirmed by us in writing in order to be valid. General terms and conditions of the customer only apply if we have expressly agreed to them in writing.

§ 2 Quotation and conclusion of contract

1. Our quotations are non-binding. Orders are only binding on us if we confirm them or fulfil them by sending the goods to the customer. Verbal side agreements shall only be binding if we confirm them in writing.

2. Confirmation of the order obligates the customer to take delivery of the goods detailed in the order confirmation.

3. As a basic principle, orders must be placed in writing (which includes by fax). If an order is placed only verbally, transcription errors and any misunderstandings shall be the responsibility of the customer. If a written order confirmation exists, the scope and content of the order shall be taken from there.

§ 3 Delivery and delivery dates

1. The goods shall be delivered in the specified versions and packing units. We reserve the right to make partial deliveries.

2. If the customer is in arrears with a payment owed to us, our obligation to deliver shall be suspended.

3. If an agreed delivery date is culpably exceeded, we shall only be deemed in default of delivery once a reasonable grace period has expired, which shall commence as soon as we receive the grace period notification. If we default in delivery for reasons for which we are responsible, the customer shall be entitled to claim – for each complete week of default – compensation of 0.5% of the invoice value of the goods and services affected by the default, up to a maximum total of 5%. The above provision in no way changes the onus of proof to our detriment. Any claims over and above this shall be excluded unless gross negligence, as a minimum, is what led to the default.

§ 4 Force majeure

1. In the case of force majeure, examples of which include strikes, lockouts or other events that we are unable to avert despite exercising a level of diligence that is reasonable given the circumstances, the contractual obligations of the parties shall – regardless of whether the event occurs within our own organisation or within a supplier's operations – be suspended for the duration of the disruption and in terms of the extent.

2. If any resulting delays exceed a period of six weeks, both contracting parties shall be entitled to withdraw from the contract as far as the affected scope of supply and services is concerned. No other entitlements exist.

§ 5 Prices and terms of conditions of payment

1. The prices specified (in EUR) in our sales documents (catalogues, ordering price lists, etc.) apply at the time of publication in each case. Promotional prices are only valid for the time period specified in each case. We reserve the right to change our prices following the pub-

lication of the sales documents. Once a contract has been concluded, the agreed price cannot be changed.

2. The prices apply ex works from Germany excluding packaging.

3. Our prices are exclusive of statutory VAT. This shall be shown separately on the invoice at the statutory rate that applies on the invoicing date.

4. Unless otherwise stated in the order confirmation, our invoices are payable within 10 days without any deductions. The time of performance shall be stated on the invoice. The customer shall be deemed in default of payment without the need for a reminder.

5. If the payment period is exceeded, we shall be entitled to charge default interest of at least 4% p.a. starting from when the customer defaults. Both we and the customer reserve the right to demonstrate a lower or higher level of loss or damage in individual cases.

6. In the event of default in payment and justified doubts concerning the solvency or creditworthiness of the customer, we shall be entitled to demand security or advance payment for any deliveries not yet made, demand the immediate settlement of all claims arising under the business relationship and take back goods delivered under reservation of title.

7. The customer shall only be entitled to set off claims if their counterclaims have been established as final and absolute, are undisputed or have been recognised by us.

§ 6 Data storage

Notice in accordance with Section 33 of the German Federal Data Protection Act: we store customer data.

§ 7 Shipping and damage in transit

1. The goods shall be shipped at the customer's risk. The risk shall pass to the customer as soon as the goods are dispatched from the warehouse. Insurance shall only be provided if expressly requested. In this case, the insurance premium charged shall be equal to 1% of the value of the goods.

2. If the customer identifies damage to the packaging (damage in transit), they must get the transport company to make an official note of the damage when taking receipt of the goods. Damage in transit that is only identified once the goods are unpacked must be reported to us in writing and received by us within three days of receipt of the goods.

§ 8 Warranty and liability

1. Complaints that relate to defects and to the properties and condition of the delivered goods shall only be considered if they are submitted in writing within eight days of receipt of the goods or, in the case of hidden defects, within 8 days of their discovery – subject to a maximum of six months after receipt of the goods – along with supporting documents.

2. Our statutory warranty obligation shall be limited, at our option, to either rectification of the defects or a substitute delivery. If rectification of the defects/substitute delivery is unsuccessful, the customer shall, at their option, be entitled to rescind the contract or to demand an appropriate reduction in the purchase price.

3. We cannot be held liable for consequential loss or damage.

4. The limitation period for claims and rights arising from defects is 1 year.

5. Limitations and exclusions of liability do not apply in the case of wilful intent or gross negligence.

§ 9 Returns

Goods can only be returned with our consent. The reason for return must be specified on the return shipment request and the relevant copy of the invoice must be enclosed with the return shipment. Special orders cannot be taken back. When goods are returned in exchange for a credit note, a 15% administrative fee and the outward freight costs shall be deducted. All returns must be processed in such a way that no costs are incurred by us. We cannot take back items that have been modified or damaged by the purchaser.

§ 10 Reservation of title

1. The purchased goods shall remain our property until we receive full payment of the receivables that are owed to us under the business relationship with the purchaser. The purchaser is permitted to dispose of the purchased goods in the ordinary course of business. The purchaser hereby assigns to us, by way of security, the receivables due from third parties as a result of resale. The purchaser is authorised to collect these for our account until further notice or until their payments to us cease.

2. In the event that the goods belonging to us are accessed by third parties, particularly bailiffs, the purchaser shall inform them that they are our property and notify us immediately by registered letter or fax.

3. In the event of the purchaser acting in breach of the contract, particularly in the case of default in payment, we shall be entitled to take back the goods belonging to us. Exercising our rights under reservation of title does not constitute withdrawal from the contract.

§ 11 Place of performance, place of jurisdiction, applicable law

1. The place of performance for all obligations arising under the contractual relationship is Karlsbad, Germany.

2. As regards all disputes that arise under the contractual relationship, legal action is to be taken at the court with jurisdiction over our registered place of business whenever the customer has "full merchant" status under German law, is a legal person under public law or is a special fund under public law. We are also entitled to take legal action at the location of the customer's head office.

3. German law applies exclusively to the exclusion of the UN Convention on Contracts for the International Sale of Goods.

§ 12 Copyright

We reserve all title to and copyright in illustrations – particularly those showing our products – drawings, costings / calculations and other documents. This especially applies to all those written documents that are identified as "confidential". Before these are used, utilised or passed on, the customer or business partner requires our express written permission.

§ 13 Severability clause

If any provision of this contract is ineffective or should become ineffective during the term of this contract, the validity and effectiveness of the other provisions shall remain unaffected.
